INDEX TO VOLUME CLXXVIII.

AUTHORS.

A

- Abel, Mary A. Adequate community organization for health educational work, 850.
 Anderson, V. V., and Leonard, Christine M. A study of the physical condition of one thousand delinquents seen in court, 803.
 Ayers, Charles E. Fracture of the neck of the femur: report of three cases, 298.
 Ayres, Samuel, Jr. The application of anaphylactic skin tests to general medicine, 697.

B

- Baldwin, Edward R. Research problems in tuberculosis, 105.
 Beckler, E. A. A plea for a quick bacteriological diagnosis of diphtheria, 531.
 Benedict, Francis G. A portable respiration apparatus for clinical use, 667.
 Bieberbach, Walter D. Gonorrhea in young male children, and its treatment, 259.
 Bigelow, Alice H. The relation of the ductless glands to gynecology: physiological and therapeutic, 715.
 Billings, Beralee W. Follow-up work in tuberculosis in the small towns and villages of Massachusetts, 861.
 Borden, Richard P. Hospital and vocational training, 634.
 Bowen John T. Progress in dermatology, 20; Report on dermatology, 740.
 Bowditch, Vincent Y. Introductory remarks by the president, fourth annual meeting of the Massachusetts Anti-Tuberculosis League, 847.
 Brasch, W. F. Lithiasis with bilateral renal involvement, 292.
 Briggs, J. Emmons. Surgery of the biliary tract, 116.
 Briggs, L. Vernon. Mental conditions disqualifying for military service, 141.
 Bristol, Leverett D. On the possible nature of measles, 437.
 Burt, C. E. Trench sanitation, 567.

C

- Champion, Merrill E. The venereal disease problem in Massachusetts, 483.
 Cheever, David, Forsyth, Thomas A., and Gay, George W. Dedication of the Cheever Amphitheatre, 449.
 Clap, Edmund W. Report of progress in ophthalmology, 56.
 Courtney, J. W. Some aspects of forensic psychiatry, 313.
 Cronin, M. J. Physical selection in its relation to heart and lung conditions, 187.
 Curran, John F. Relation of industrial surgeon to industry and to society, 215; Welfare insurance and the factory, 394.

D

- Dana, Harold W. Recruiting notes, 255.
 Davis, Michael M., Jr. Dispensaries in Massachusetts, particularly in Boston, 432.
 Davis, Michael, M., Jr., and Warner, Andrew R. The beginning of dispensaries, 712.

- Day, Hilbert F. Observations on disabled shoulders, with especial reference to sub-acromial bursitis, 289.
 Dearborn, George Van Ness. Some relations of exercise to nutrition, 458; Get lean and—homely, 887.
 Deering, George E. Efficiency in the examination of school children, 498.
 DeNormandie, Robert L. Obstetrics, 75.
 Donoghue, Francis D. Medical competence and hospital efficiency, 594; The relation of the doctor to Workmen's Compensation, 693.
 Downing, Andrew P. The problem of physical selection applied to large numbers of applicants, 177.
 Drew, Charles A. The standardization of hospitals, 527.

E

- Eloesser, L. Wounds of the joints, 555.

F

- Field, Martin D. Gastro-duodenal perforation: a new diagnostic sign, 220.
 Fischbein, Louis. Causes and treatment of chronic hyperacidity, heartburn and sour regurgitation, 86.
 Floyd, Cleveland. Artificial pneumothorax and pulmonary tuberculosis, 345.
 Forsyth, Thomas A., Gay, George W., and Cheever, David. Dedication of the Cheever Amphitheatre, 449.

G

- Gammona, Herbert F. Artificial pneumothorax, 90; Climate in tuberculosis, 364; The modern treatment of tuberculosis, 532; Spontaneous pneumothorax complicating pulmonary tuberculosis, 637; Pathological classifications of pulmonary tuberculosis, 809.
 Gay, George W., Cheever, David, and Forsyth, Thomas A. Dedication of the Cheever Amphitheatre, 449.
 Gould, A. G. The control of a smallpox epidemic by vaccination, 395.
 Gray, Horace. Lipoids in 131 diabetic bloods, 16, 50, 91, 120, 156; Army tuberculosis examinations, 799.
 Greenough, Robert B. Radium in the treatment of carcinoma of the buccal cavity, 598.

H

- Haberman, J. Victor. A psychopathic constitution resembling so-called moral insanity, and its interpretation, 194.
 Harrington, M. A. With the R.A.M.C. in France, 631.
 Harrington Thomas F. Health in war industries, 453.
 Hatfield, Charles J. War and tuberculosis, 863.
 Hawes, John B., 2d. The value of the physician and of the nurse in social service work in tuberculosis; the responsibility of each to the state and to the patient, 381; Random remarks on tuberculosis, 589.
 Hilliard, C. M. Relative values in anti-tuberculosis work, 853.
 Hoch, Theodore A. A case of cerebrospinal meningitis successfully treated by intraspinal and intraventricular administration of anti-meningitis serum, 327.
 Holmes, George W. The x-rays in phthisis, 71.
 Howell, William W. The primary lesion of tuberculosis; its significance, diagnosis and treatment, 152.
 Hyman, Clarence H., and Leary, Timothy. The treatment of anthrax with normal (beef) serum. Review of the literature with report of a case. (Studies in serum therapy vii.), 318.

J

Jones, Lyman Ann. The Massachusetts venereal disease program, 236.

K

Kelley, Eugene R. The Massachusetts venereal disease program, 100, 203.

Klimpton, A. R. Transfusion. Experiences in over two hundred cases, 351.

King, Howard Dudley. The army surgeon of other days, 253.

L

Ladd, W. E. Congenital pyloric stenosis, 767.

Lawrence, C. H. and Shattuck, F. C. Acute lobar pneumonia, 245.

Leonard, Christine M., and Anderson, V. V. A study of the physical condition of one thousand delinquents seen in court, 803.

Leary, Timothy. Some modern medical problems, 422.

Leary, Timothy, and Hyman, Clarence H. The treatment of anthrax with normal (beef) serum. Review of the literature with report of a case. (Studies in Serum therapy vii.), 315.

Lees, Thomas F. Recent treatment of lobar pneumonia, 251.

Lewis, D. M. Membranous croup, 47; Differentiation of streptococci, 222; The use of and value of statistics, 503; Prevention in public health, 571; A study of diphtheria carriers, 602; The control of Communicable diseases, 772.

Lloyd, Henry D. Primary syphilis of eyelid, with report of a case, 609.

Lowrey, Lawson G. Differential diagnosis in psychiatry: a comparison of symptoms in various disease states, 703.

M

MacDonald, Arthur. Identification of soldiers after death by head measurements, 807.

Marshall, Herman W. Back troubles, A review of the present situation from a series of hospital cases; and a discussion of musculo-ligamentous causes, 279; Revised ideas concerning foot defects and orthopedic footwear, 423; Structural deformities versus functional efficiencies as objects of treatments, 708.

McCarthy, E. A. The after-care of the war cripple, 37.

McKee, Elmore M. The venereal problem—the army viewpoint, 467.

McMurtrie, Douglas C. Re-educating German war cripples at Dusseldorf, 182.

Moore, G. A. The Carrel-Dakin method of treating septic wounds: its application to civil surgery, 109; Mobilization of the knee joint in suspension-traction treatment of fracture of the femoral shaft, 736.

Morse, John Lovett. Progress in pediatrics. A resume of the literature of infantile scurvy during the past five years, 160.

O

O'Brien, Frederick W. Preoperative diagnosis by Roentgen ray of hair cast of stomach, 396.

Ordway, Mabel D. A plea for a legitimate trial of scientific medical methods in chronic intestinal conditions before resorting to surgical interference, 606.

Osato, Michael. Paralysis agitans and myopathic dystrophy occurring in uncle and nephew, with evidences of internal glandular dyscrasia in the latter, 123.

Otis, Edward O. The examination of soldiers for tuberculosis in the U. S. Army, 33; The place of the home, the dispensary, the sanatorium or the hospital in the treatment of tuberculosis (value of diet, rest, fresh air, etc.), 417.

P

Packard, Frederick H. Suggestions on the care of mental cases, 211.

Pemberton, Frank A. Hemorrhage from the uterus in the non-pregnant woman, 485.

Phaneuf, L. E. Ventral fixation of the uterus, causing

dystocia. Ruptured uterus following version for transverse presentation. Hysterectomy and recovery. Report of a case, 55.

Piereson, Philip H. Spontaneous pneumothorax, 385.

Porter, W. T. Traumatic shock, 657.

Pratt, Joseph H. The physical examination in pulmonary tuberculosis, 519.

Preble, William E. Focal infection and rheumatism, 82.

Prenn, Joseph. Hearing test apparatus, 896.

R

Rackemann, Francis M. A clinical study of 150 cases of bronchial asthma, 770.

Rappleys, W. C. A study of the kidney function in senility, 191.

Reckord, Frank F. D. The anatomy and physiology of the respiratory tract, 660.

Redden, William R. Meningococcus carriers: preliminary report from first naval district, 623.

Rubin, I. C. Vaginal discharge in children: study of 255 selected cases, with special reference to the question of the diagnostic and specific value of smear examinations, 147.

Rushmore, Stephen. Progress in gynecology, 533, 574.

S

Sever, James Warren. The diagnosis of the conditions causing painful and irritable backs, 323.

Shattuck, F. C. and Lawrence, C. H. Acute lobar pneumonia, 245.

Sisson, Warren R. A critical review of intestinal bacteriology in relation to certain diarrheas of infants, 492.

Smith, William H. The differential diagnosis of pulmonary tuberculosis, 1.

Sobotky, Irving. Severance of the chorda tympani nerve, 224.

Spofford, Ethel M. Annual report of the Massachusetts Anti-Tuberculosis League, 858.

Staebler, Anna M. Conservation of man power in industry, 368.

Standish, Myles. Annual discourse. The socialization of the practice of medicine, 837.

Stedman, Henry R. Recent progress in psychiatry, 638.

T

Taylor, J. Danforth. The physician and psychology, 720.

Tenney, Benjamin. The recognition of surgical kidney, 44; Renal and uterine stone, 731.

Tracey, Edward A. The red streak: a sign of disease, 392; Idiopathic epilepsy a sympathicopathy, 775, 810, 871, 897.

W

Warner, Andrew R., and Davis, Michael M., Jr. The beginning of dispensaries, 712.

Watters, W. H. Surgical sutures as causes of wound infection, 630.

Wheatley, Frank, Jr. Roentgenology in the American Army, 727.

White, Charles J. The treatment of eczema in childhood, 5.

White, Franklin W. Some effects of massage on the colon, 48.

Whitehill, G. E. Organized provision for the care of the sick in Massachusetts, 217.

Whittemore, Wymma. The surgical treatment of empyema, 360.

Wilkins, George C. Unnecessary operations, 347.

Williams, Fred R. The serum-conserved dressing for industrial wounds, 452.

William, F. A. Paroxysmal tachycardia of ventricular origin, 40.

Y

Young, James K. Gunshot wound of the posterior cord of the brachial plexus, 501.

SUBJECTS.

A

- American Climatological and Clinical Association program, 796.
- American Hospitals and surgeons in France, 344.
- American Medical Association, annual meeting, 481.
- Annual Discourse, Massachusetts Medical Society: The socialization of the practice of medicine, Myles Standish, M.D., S.D., 837.
- Annual Report of the Surgeon-General, U. S. Navy, 1917, 335.
- Anthrax in Massachusetts, 132; The treatment of anthrax with normal (beef) serum. Review of the literature with report of a case. (Studies in serum therapy, vii.), Clarence H. Hyman, M.D., and Timothy Leary, M.D., 318.
- Antiseptics in surgery, 882.
- Aridity of heated rooms, 721.
- Army Surgeon of other days, Howard Dudley King, M.D., 258.
- Army Tuberculosis examinations, Horace Gray, M.D., 799.
- Artificial Pneumothorax, Herbert F. Gammons, M.D., 90; Artificial pneumothorax and pulmonary tuberculosis, Cleveland Floyd, M.D., 349.
- Attendance at medical meetings, 546.

B

- Back Troubles. A review of the present situation from a series of cases; and a discussion of the musculo-ligamentous causes, Herman W. Marshall, M.D., 279; the diagnosis of the conditions causing painful and irritable backs, James Warren Sever, M.D., 328.
- Biliary Tract, surgery of the, J. Emmons Briggs, M.D., F.A.C.S., 116.
- Biologic Products, notes on, from the State Department of Health, 103.
- Blood Pressure findings in disease, 880.
- Book Reviews.
- Annual reprint of the reports of the Council on Pharmacy and Chemistry of the American Medical Association for 1916, 611.
- A text-book of histology, Frederick R. Bailey, 400.
- Occupational Therapy, George Edward Barton, 226.
- The principles of gynecology, W. Blair Bell, 327.
- The sex complex, W. Blair Bell, 718.
- Blood transfusion, hemorrhage and the anemias, Bertram Bernheim, 823.
- The year-book of the Bureau of Preventable Diseases, John S. Billings, 399.
- A treatise on regional surgery, edited by John Fairbairn Binnie, 906.
- Surgery and diseases of the mouth and jaws, Wilray Papin Blair, 506.
- Ligations and amputations, Prof. A. Broca, 226.
- The control of hunger in health and disease, Anton Julius Carlson, 366.
- A study in hospital efficiency as demonstrated by the case report of the first five years of a private hospital, E. A. Codman, 125.
- Diseases of Women, Henry Sturgeon Crossen, 227.
- Operative gynecology, Harry Sturgeon Crossen, 304.
- The healthy girl, Mrs. Joseph Cunningham and A. Campbell, 262.
- The secretion of urine, A. R. Cushny, 401.
- Gynecology—the practical medicine series, edited by Emmellus C. Dudley, 226.
- Venesection, Walton Forrester Dutton, 332.
- Elements of pediatrics for medical students, Rowland G. Freeman, 879.
- War nursing, Minnie Goodnow, 878.
- Infant feeding, Clifford G. Grulee, 878.
- The intensive treatment of syphilis and locomotor ataxia by Aachen methods, Reginald Hayes, 905.
- The institutional care of the insane in the United

- States and Canada, edited by Henry M. Hurd, 904.
- Urology: diseases of the urinary organs: the venereal diseases, Edward L. Keyes, Jr., M.D., 904.
- Common diseases of the male urethra, Frank Kidd, 905.
- The new system of gynecology, edited by Thomas Watts Eden and Cuthbert Lockyer, 198.
- An inquiry into the principles of treatment of broken limbs, William F. Fluhrer, 266.
- Diagnosis from ocular symptoms, Matthias L. Foster, 401.
- Manual of psychiatry, I. R. deFursac and A. J. Rosanoff, 56.
- Clinical laboratory technic for nurses, Anna L. Gibson, 23.
- Kirk's handbook of physiology, Charles W. Greene, 164.
- Candy medication, Bernard Hantus, 304.
- Pathological lying, accusation, and swindling, William Healey and Mary Tenney Healy, 324.
- Clinical lectures on infant feeding, Lewis Webb Hill and Jesse Robert Geratley, 507.
- Diet for children, Louise E. Hogan, 398.
- Universal military training, Lucien Howe, 440.
- Radium therapy in cancer, Henry H. Janeway, 197.
- The practice of pediatrics, Charles Gilmore Kerley, 783.
- Text-book of surgical operations, Prof. Fedor Krause and Emil Heymann, 399.
- Handbook of gynecology, Henry Foster Lewis and Alfred de Roulet, 227.
- The organism as a whole, Jacques Loeb, 399.
- The conduction of the nervous impulse, Keith Lucas, 879.
- Principles of diagnosis and treatment in heart affections, Sir James Mackenzie, 398.
- Standard surgical dressings, Nellie A. MacKenzie, 366.
- Manual of splints and appliances for Medical Department of the United States Army, 751.
- White and Martin's genito-urinary surgery and venereal diseases, Edward Martin, Benjamin A. Thomas, and Stirling W. Moorhead, 507.
- Injuries of the face and jaw and their repair, and the treatment of fractured jaws, P. Martinier, 907.
- Collected papers of The Mayo Clinic, 905, 906.
- A text-book on organic chemistry, E. J. McCollum, 718.
- A bibliography of the war cripple, Douglas C. McMurtrie, 879.
- The medical clinics of North America, 59.
- The practical medicine series, edited by Charles L. Mix and John B. Murphy, 440.
- Aids to bacteriology, C. G. Moor, 440.
- Surgical contributions, Rutherford Morison, 228.
- The biology of tumors, C. Mansell Moulin, 399.
- Diseases of the chest and principles of physical diagnosis, George William Norris and Henry R. M. Landis, 197.
- Physical exercise for invalids and convalescents, Edward H. Ochsner, 125.
- The pathology of nephritis, William Ophuls, 440.
- Skin and venereal diseases, edited by Oliver S. Ormsby and James Herbert Mitchell, 507.
- The spleen and anemia. Experimental and clinical studies, R. M. Pearce, E. B. Krumbhaar, and C. H. Frazier, 823.
- An intermediate textbook of physiological chemistry, with experiments, C. J. V. Pettibone, 904.
- Clinical surgical diagnosis for students and practitioners, Prof. F. deQuervain, 198.
- Three clinical studies in tuberculous predisposition, W. C. Rivers, 228.
- Treatise on fractures, John B. Roberts and James A. Kelly, 824.
- An intermediate case-taking, G. W. Ross and Julian Loudon, 401.
- Notes on the causation of cancer, Hon. Rollo Russell, 905.
- A manual of organic materia medica and pharmacology, Lucius E. Sayre, 397.
- Manual for institution libraries, Carrie E. Scott, 197.
- Neurosyphilis. Modern systematic diagnosis and treatment, E. E. Southard and H. C. Solomon, 678.
- The law of the heart, Ernest H. Starling, 843.
- A laboratory manual of organic chemistry, Matthews Steel, 400.
- The surgical clinics of Chicago, 59.
- Diseases of the skin, Richard L. Stetson, 164.
- Pocket formulary, E. Quin Thornton, 678.
- Habits that handicap, Charles B. Towns, 401.
- United States naval medical bulletin, January, 1918, 197.

Lectures on medicine—a handbook for nurses, Chalmers Watson, 578.
 Traumatic pneumonia and traumatic tuberculosis, F. Parkes Weber, 398.
 Wound infections, Colonel Sir Almoth E. Wright, 400.

Boston City Hospital Alumni Association, 477.

British Marriage Rate and the war, 236.

Bronchial Asthma, a clinical study of 150 cases, Francis M. Rackemann, M.D., 770.

C

Camp Devens, medical books and periodicals at, 755.
 Cancer Commission of Harvard University, annual report of, 580.

Carbohydrates in diabetes, 786.

Carcinoma of the Buccal Cavity, radium in the treatment of, Robert B. Greenough, M.D., 598.

Care of Sick, organized provision for the, in Massachusetts, G. E. Whitehill, M.D., 217.

Carrel-Dakin Method of treating septic wounds: its application to civil surgery, G. A. Moore, M.D., 109.
 Censors' Examinations, 588.

Centralization of Authority versus unpaid boards of trustees, 305.

Cheever, Amphitheatre, dedication of, 449.

Children First, 411.

Children's Year, 645; program for "The Children's Year" in New York City, 790.

Chorda Tympani Nerve, severance of, Irving Sobotky, M.D., 224.

Chronic Intestinal Conditions, a plea for a legitimate trial of scientific medical methods in, before resorting to surgical interference, Mabel D. Ordway, M.D., 606.

Comparative Statistics on physical examinations of pupils of the Boston public schools from December 1, 1915, to March 1, 1918, 915.

Competitive Examination for candidates for positions in the Massachusetts State Department of Health, and regulations governing appointment, 379.

Cold-Pack Canning and Botulism, 171.

Congenital Pyloric Stenosis, W. E. Ladd, M.D., F.A.C.S., 767.

Conscription of Physicians, a plan for, 203.

Conservation of Sugar, alcohol, and glycerin, 477.

Control of Smallpox epidemic by vaccination, A. G. Gould, Ph.M., M.D., 395.

Control of Communicable Diseases, D. M. Lewis, M.D., 772.

Communicable Diseases, resume of, in Massachusetts, 68, 655, 795.

Correspondence. More medical officers needed in the army and navy, J. B. Blake, W. L. Burrage, 554; A children's pavilion at the Sharon Sanatorium, Vincent Y. Bowditch, 553; Regulation of the practice of medicine, Walter P. Bowers, 552; Vesalius and Louvain, leader H. Coriat, 210; Surgical syphilis in the eighties, William Pearce Coues, 766; Address before the Governor of New York at the hearing on the bill for a narcotic drug commissioner, John F. Davin, 765; A Scottish hair-cast case, Alfred E. La, 518; Sugar and service, Paul W. Goldsberry, 70; Standardization of medical publications, H. P. Greeley, 797; A correction, George W. Holmes, 797; Compulsory antityphoid inoculation, W. W. Keen, 692; American doctors in England, Mary Elford King, 244; Bathing in Russia, M. J. Konikow, 518; Doctors and the Medical Reserve Corps, Clarence B. Livingston, 140; Obstetrics and the medical profession, Charles Malone, 210; A protest and a defense, E. A. McCarthy, 586; Toxicity of arsenamine and neo-arsenamine, G. W. McCoy, 554; A letter from the trenches, Frank Piper, 622; Bacteriology of cerebrospinal meningitis, Wm. D. Reid, 415; The treatment of pneumonia, Beverly Robinson, 346; Navy's call for binoculars, spy-glasses and telescopes—"The eyes of the Navy," Franklin D. Roosevelt, 140; Reporting of accidents from local

anesthetics, Torald Sollmann and R. A. Hatcher, 173; Procaine and novocaine identical, Julius Stieglitz, 916; Venereal drug legislation, James Brown Thornton, 416; Alcohol in medicine, Charles W. Townsend, 70; Vaccination certificates, Samuel B. Woodward, 312.

Council of National Defense, 685; The General Medical Board of the Council of National Defense, 689; Medical Section of the Council of National Defense, 719; meeting of state committees of the Medical Section of the Council of National Defense, 760; List of Massachusetts physicians in the service of the Army, Navy and Red Cross, 372.

D

Delinquents, a study of the physical condition of one thousand, seen in court, V. V. Anderson, M.D., M.A., and Christine M. Leonard, M.D., 808.

Dermatology, progress in, John T. Bowen, M.D., 20.

Diabetic Bloods, lipoids in 131, Horace Gray, M.D., 16, 50, 91, 120, 156.

Diagnosis of the conditions causing painful and irritable backs, James Warren Sever, M.D., 323.

Differential Diagnosis of pulmonary tuberculosis, William H. Smith, M.D., 1.

Diarrhea in Infants, a critical review of intestinal bacteriology in relation to, Warren R. Sisson, M.D., 492.

Diphtheria Carriers, a study of, D. M. Lewis, M.D., 602.

Diphtheria, a plea for a quick bacteriological diagnosis of, E. A. Beckler, 531.

Dispensaries in Massachusetts, particularly in Boston, Michael M. Davis, Jr., Ph.D., 432; the beginning of dispensaries, By Michael M. Davis, Jr., and Andrew R. Warner, M.D., 712.

Drug Addiction, 835.

Dystrophy. Paralysis agitans and myopathic dystrophy occurring in uncle and nephew, with evidences of internal glandular dyscrasia in the latter, Michael Osnato, M.D., 123.

Drug Bill of State Department of Health, 335.

Ductless Glands, the relation of, to gynecology: physiological and therapeutic, Alice H. Bigelow, A.B., M.D., 715.

E

Eczema, the treatment of, in childhood, Charles J. White, M.D., 5.

Editorials. Organic lesions in shell shock, 24; Public health value of universal physical examinations, 25; Every doctor in the Medical Reserve Corps, 26; Shell shock and the American Army, 60; Standardization of school hygiene, 62; The limit of recovery in hemiplegia, 63; Individual income tax returns, 64; The program of the State Department of Health against venereal disease, 95; Nurses in the United States Army, 96; The military significance of cerebrospinal meningitis, 98; Treatment of leukemia, 97; Military psychiatry, 98; The government war-risk insurance, 126; Prenatal care and infant mortality, 126; Health legislation recommended by State Department of Health, 127; Massachusetts Medical Society dues, 127; Military anti-tuberculosis program perfected, 165; Massachusetts Society for Mental Hygiene, 167; War-risk insurance, 167; Mobilizing the profession for war, 199; The needs of the medical service, 199; War-risk insurance, 200; War nephritis, 223; Reports of hospitals for the insane, 230; The venereal disease program in Massachusetts, 231; The man who stayed at home, 270; War-risk insurance, 271; Pneumonia, 271; Centralization of authority versus unpaid boards of trustees, 305; State quotas of babies to be saved during children's year, 306; Advanced rank for medical officers, 333; Volunteer medical service corps, 334; State Department of Health drug bill, 335; Annual report of the Surgeon-General, U.
